We remain at a critical point in managing the transmission of the COVID-19 virus. Our collective effort has had a positive impact on limiting the spread of the virus. Our hospitals have capacity and hospitalization rates have been relatively low and slowly decreasing or flat for weeks. San Francisco continues to work on building up its testing, case finding, case investigation, and contact tracing capacity, and its means to protect vulnerable populations and address outbreaks. In light of significant progress made, recent amendments to the order have allowed some additional businesses and additional activities that are lower risk for transmission of the virus to begin, with safety precautions.

Still, the there is risk, the danger the virus poses to the health and welfare of all continues and the risk increases as we reopen more businesses and resume more activities. A major threat remains the spread of COVID-19 through asymptomatic carriers. Also, while the search continues, there is not yet an effective treatment or cure for the disease. The vast majority of the population remains susceptible to infection. Therefore, this incremental resumption of certain business and other activities is designed to keep the overall volume of person-to-person contact low to help contain the risk of a surge in COVID-19 cases in the County and neighboring counties. The Health Officer will assess the activities allowed by the order on an ongoing basis and may need to restrict or otherwise modify them if the risk associated with COVID-19 increases in the future. But if San Francisco continues to make progress on ways to contain virus transmission and health-based risk considerations support doing so, the Health Officer will continue to ease restrictions and allow additional business and other activity under a phased, data-driven incremental process, to provide for a safer economic recovery.

The City will continue to strictly apply the Order consistent with its stated intent, and you must strictly follow it. The answers to frequently asked questions below should guide your compliance. The City will keep updating this information to align with the best public health practices and any changes to the Order as circumstances evolve. We have a path forward. Everyone needs to continue to pull together—and together we will get through this.

**STAY SAFE AT HOME EXPLAINED**

**What does the Order do?**

The Stay-Safe-At-Home Order still requires that most people continue sheltering in their place of residence and a related order requires most people to wear face coverings when they leave their residence. But recent amendments to the Order made a number
of significant changes to the original stay-at-home order, which are highlighted below (many of these activities are subject to capacity limits and other requirements):

**Essential Businesses:**

- All construction projects can proceed, provided they comply with the Construction Project Safety Protocols issued as part of the Order.
- Commercial as well as residential real estate transactions are allowed to fully resume, but with continued restrictions on in-person viewings and appointments.
- Childcare establishments and summer camps can provide care to all children, subject to certain requirements. All operations must comply, to the greatest extent possible, with restrictions specified in the Order, including that they be carried out in stable groups of 12 or fewer children.

**Outdoor Businesses:**

- Outdoor Businesses (as defined in the Order and described below) are allowed to continue to operate, and people are allowed to visit them to perform work or to obtain goods, services, or supplies.
- Outdoor Businesses are those that normally operated primarily outdoors before the Shelter in Place Orders, and where social distancing of at least six feet can be maintained between all people. These include outdoor retail businesses like nurseries, outdoor service providers like landscapers, and agricultural operations. Outdoor businesses do not include outdoor restaurants, cafes, or bars.

**Additional Businesses:**

- A new category of businesses that are allowed to reopen has been added to the Order—“Additional Businesses.” So long as the COVID-19 indicators continue to improve and the Health Officer determines that the situation supports more activity, more businesses will be phased in over time, based on the health related risk of those businesses and with appropriate new safety precautions, as part of the City’s economic recovery. With input from stakeholders, the City is in the process of developing a detailed data-based and phased economic recovery plan that will be consistent with the four-stage state framework for recovery. An overview of the reopening plan is available [here](#).
- Additional businesses currently include:
  - Retail stores;
  - Low-contact retail services (like dog grooming and shoe or electronics repair);
  - Businesses that manufacture the goods sold at retail stores;
  - Businesses that provide warehousing and logistical support to retail stores;
Outdoor dining;
- Streaming or broadcasting of entertainment events;
- Outdoor fitness classes;
- Indoor household services (like house cleaners or cooks);
- Businesses that rent equipment for outdoor activities; and
- Professional sports team practices (with an approved plan).

Additional Activities:
- A new category of activities that are allowed to resume has been added to the Order—“Additional Activities.” So long as the COVID-19 indicators continue to improve and the Health Officer determines that the situation supports more activity, more permitted activities will be phased in over time based on their health related risks and with appropriate new safety precautions.

Additional Activities currently include:
- Small outdoor gatherings;
- Outdoor museums, outdoor historical sites, and public gardens (e.g., the Botanical Gardens);
- Golf and tennis; and
- Dog parks.

Social Distancing Protocols for Businesses:
- All business facilities operating in the County, including businesses carrying out minimum basic operations, must comply with the requirement to create a Social Distancing Protocol. (Note: construction activities must instead comply with the Construction Project Safety Protocols.)
- In their Social Distancing Protocols, businesses must now ensure that personnel and customers wear face coverings when entering their facilities (except those customers for whom face coverings are not recommended, like young children).
- All existing Social Distancing Protocols must be updated to reflect the new requirements.
- We encourage businesses that are not yet allowed to operate to focus on planning to effectively implement social distancing and related measures in their facilities so they are ready to safely reopen when allowed.

Essential Activities and Travel:
• All residential moves are now allowed to proceed.

Recreation:
• The new Order allows use of shared outdoor recreational facilities that do not encourage gathering or contain high-touch equipment. However, everyone must follow any restrictions that either state or local authorities impose.

COVID-19 Indicators:
• The Health Officer will consider easing or expanding restrictions based on health considerations including progress we collectively achieve on several key indicators described in the new Order and referred to as the COVID-19 Indicators.

Continues Until No Longer Needed:
• The Order will remain in effect until it is extended, rescinded, superseded or amended in writing by the Health Officer. The Health Officer will continually monitor the COVID-19 indicators to determine whether any changes are needed, including allowing more businesses and activities in a planned, incremental way over time, or restricting businesses and activities if need be due to a surge in COVID-19 cases or an adverse change in the COVID-19 indicators. And the Health Officer will ultimately determine when health conditions support terminating the order; while it is anticipated that more business and other activity will be allowed over time, termination of the order is not anticipated for many months.

How long does the Order last?
The Order will be in effect until it is rescinded, superseded, or amended in writing by the Health Officer. How long the restrictions are in place will depend on how long the pandemic lasts and what is needed to address the pandemic, including progress we collectively achieve on several key indicators described in the new Order and referred to as the COVID-19 Indicators.

(Amended 4/29/2020, 5/18/2020)

Can the new Order be changed?
Yes. The Health Officer may make changes to the new Order as more information emerges about the public health situation and may issue new orders and directives as conditions warrant. The Health Officer anticipates making changes in accordance with the economic recovery plan that is in the works, assuming those changes are supported by the indicators.
Why aren’t more businesses allowed to open?

Thanks to the collective effort and sacrifice of the 7 million residents across the Bay Area, we have made progress in slowing the spread of the novel coronavirus, ensuring our hospitals are not overwhelmed with COVID-19 cases and saving lives. This progress allows us to ease some restrictions to allow curbside retail to resume in addition to lower-risk outdoor businesses and outdoor activities, so long as they strictly comply with social distancing requirements and other protections in the Order.

But, at this stage of the pandemic, we need to maintain most of the restrictions of shelter-in-place so that we do not lose the progress we have achieved. Lifting too many restrictions too soon could easily lead to a large surge in cases and result in avoidable hospitalizations and deaths, and it may also lead to longer-term economic harms.

With input from stakeholders, the City is in the process of developing a detailed data-based and phased economic recovery plan that will be consistent with the four-stage state framework for recovery. An overview of the reopening plan is available here.

(Added 4/29/2020; Amended 5/18/2020, 6/1/2020)

Is this mandatory or is it just guidance?

It is mandatory. This Order is a legal Order issued under the authority of California law. You are required to comply, and it is a crime (a misdemeanor) not to follow the Order.

I run an “Essential Business,” “Outdoor Business,” or “Additional Business” as defined by the Order. Do I need to get an official letter of authorization from the City to operate a facility in the City?

No. If your business is covered in the list of “Essential Businesses,” “Outdoor Businesses,” or “Additional Businesses” in the Order, then you may operate your business from a facility in San Francisco so long as you create, post, and implement a Social Distancing Protocol for each facility using the template attached to the Order. You do not need to obtain any specific authorization from the City to run your business. The City does not issue written determinations or authorizations.

(Amended 4/29/2020, 5/18/2020)

Is a building that has “Essential Businesses” as tenants required to create and post a social distancing protocol? Or is it the responsibility of the business tenants themselves?

It is the responsibility of tenant essential businesses to comply with the social distancing requirements, including creating and posting a social distancing protocol. However, if your essential business is located within an enclosed mall or office building, the building’s management may also be required to undertake additional planning
measures to reopen and protect tenants and members of the public; you should consult with the building management to determine if there are additional requirements.

(Added 4/7/2020; Amended 6/15/20)

I work for a business that is allowed to operate under the Order. Do I need to have a letter from my employer or other documentation to travel?

No. You do not need to carry official documentation (and the City does not issue any) demonstrating that you are exempt under the new Order. But be prepared to explain if requested by law enforcement why your travel is allowed under the Order.

(Amended 4/29/2020)

What does it mean to “shelter in place”?

The term “shelter in place” means to stay safe in your home and not leave unless necessary for one of the exceptions listed in the Order (discussed more below).

I heard that there is a statewide shelter-in-place order. Do I still need to comply with San Francisco’s Order?

Yes. In addition to the statewide order, the City Health Officer’s Order remains in effect. All residents must comply with the restrictions in both orders. If the restrictions in the two orders are different, you must comply with the stricter of the two orders.

What is the difference between “sheltering in place” and “social distancing”?

Sheltering in place is a more rigorous form of social distancing.

Sheltering in place means you:

- Must stay at home
- Can only leave your home for “essential activities, “additional activities,” or “outdoor activities,” to work for an “essential business,” “additional business” or “outdoor businesses,” to provide or access “essential governmental functions,” to perform “minimum basic operations” for your employer, or for “essential travel,” as those terms are defined in the new Order (you can also see the FAQs for details)

In addition, you should also maintain at least 6 feet of separation from other people who are not in your household; wash your hands frequently for at least 20 seconds each time (or use hand sanitizer); cough or sneeze into a tissue or your sleeve (not into your hands); wear a face covering when out in public; and stay home if you are sick.

(Amended 4/29/2020, 6/15/2020)

What if I am homeless?
Persons experiencing homelessness are exempt from the Order’s requirement that they shelter in place in their residence and its prohibition against all travel other than essential travel. But individuals staying in homeless shelters should stay there, and all shelter guests should wash hands frequently, and practice social distancing. Unsheltered people living in public spaces, tents, in vehicles, or otherwise unsheltered, should use the City’s public restrooms and newly expanded hand-washing stations frequently, and should also practice social distancing. The Order also urges the City to keep 12x12-foot spacing around tents and only one person per tent. The order urges the City to provide shelter to people experiencing homelessness, and the City has put in a place a program that rents hotel rooms to house people affected by the pandemic. Up-to-date information on the number of people provided emergency, temporary housing and shelter options because of the coronavirus can be found here.

(Amended 4/30/2020)

**How do I report a business or organization that might be violating the Order and endangering the public or its employees?**

As the City re-opens, businesses are adapting and engaging in new ways of serving the public. But all business must still comply with the Health Officer’s orders. Before calling the City, check the City’s re-opening plan to see what is permitted. An overview of the reopening plan is available here.

If you see activity that is not allowed, then call 311. Your complaint will be referred to the appropriate City agency for investigation and enforcement. When you call, help us by providing the name and address of the business, and do your best to describe exactly what you observed and when.

(Added 4/6/2020; Amended 6/15/2020, 6/17/2020, 6/18/2020)

**How do I report individuals whose activity appears to be violating the health orders?**

It is best to call police non-emergency dispatch at 415-553-0123 (but if you forget that number, just call 311).

(Added 4/6/2020; Amended 6/1/2020, 6/15/2020, 6/18/2020)

**DAILY ACTIVITIES**

**Can I still get my mail and deliveries?**

Yes. Mail and delivery services may continue to operate under the Order.
Can I still order the things I need online from businesses and have them delivered to my home?

Yes. The Order allows you to go online, purchase items, and have them delivered to your home.

Am I allowed to go to a mail drop off/post office to mail packages?

Yes. Businesses that provide mailing and shipping services are essential businesses within the meaning of the Order, and travel to essential businesses is permitted under the Order. But individuals are urged to delay all non-essential shipping and must comply with social distancing requirements during any permitted outings.

(Added 4/2/2020)

Can I go out to do laundry or to have my laundry done?

Yes.

Can I go to the bank?

Yes, you can go to the bank. But individuals are urged to minimize unnecessary trips and must comply with social distancing requirements during any permitted outings.

(Added 4/2/2020)

I need to take out a loan or send cash—what kinds of financial institutions are allowed to be open?

In addition to banks and credit unions, money remittance services, financing services at pawn shops, check cashing services, money lenders, and similar financial institutions can operate. For businesses that mix a financial service component with a retail or other component, only the financial service can be open.

(Added 4/29/2020)

Should I stock up on food, necessities like toilet paper, and on medicines?

No. You will continue to be able to purchase these items. Stores selling necessary items like grocery stores, pharmacies, and hardware stores will stay open. Please continue to buy normal quantities of these items on the same schedule you normally follow. This will ensure that there is enough for everyone.

Does this order disrupt the fuel supply chain? Should I be stocking up on fuel? What about other essential supply chains, such as food?

The Order does not disrupt California’s fuel supply and fuel providers are open for business, including:

- Refineries
Pipeline operators
- Distribution terminals
- Tanker trucks
- Fuel wholesalers

In addition, the Order does not disrupt California’s food or hardware supply, and grocery and hardware stores are open for business.

(Added 4/2/2020)

What if I can’t get out of the home? How can I get supplies and food?

Please contact friends, family, or others you know who can provide support. They are allowed to pick up the items you need. You can also order food and other supplies and have them delivered to your home.

Can I leave home to go to my church, synagogue, or mosque?

For your safety as well as the safety of your fellow worshippers, we need to help each other fight the spread of COVID-19 by staying at home. But places of worship may offer remote access to services, such as by emails, video streaming, or teleconference. While it is better from a health perspective for leaders of congregations to live stream services from their homes, they can live stream services from within their place of worship so long as: (1) the building remains closed to the public; (2) the live stream is limited to the fewest number of personnel needed for the live stream of the service (up to a maximum of 12 people) and (3) they comply with all social distancing and sanitation requirements. Also, places of worship may hold services outdoors for up to 12 people.

(Amended 4/30/2020; Amended 6/15/2020)

Can I go to a bar, nightclub, or theater?

No. Entertainment venues are not allowed to operate except to film, stream, or otherwise broadcast small scale events so long as the venue remains closed to the public and follows other safety requirements. Some bars may be allowed to serve alcoholic beverages outdoors, if the bar has permitted space, and serves a bona fide meal with the alcoholic beverage. The bar must still comply with all ABC licensing requirements, including a COVID-19 Temporary Catering Authorization. More information on the ABC’s COVID-19 Temporary Catering Authorization is available here.

(Amended 6/15/2020)

Can I go to a restaurant, café, coffee or tea shop, ice cream shop, or other foodservice location?

Rev. 6/18/2020
Yes, but only to pick up food or dine outside. You cannot dine, eat, or drink inside the facility. These facilities can also deliver.

(Amended 6/15/2020)

Can I walk my dog?

Yes, but be sure that you distance yourself at least six feet from all others who are not part of your household. Also note that the Centers for Disease Control and Prevention has released guidance advising that you should treat pets as you would your human family members—do not let pets interact with people or animals outside the household. If a person inside your household becomes sick, isolate that person from everyone else, including pets.

(Amended 4/29/2020; Amended 6/1/2020)

Are dog walkers allowed?

Yes, dog walkers are allowed and, as of June 8, 2020, the limitation that they may only walk one dog at a time (or multiple dogs that live in the same household) no longer applies. Subject to applicable permit requirements for commercial dog walkers in San Francisco, dog walkers can walk multiple dogs, but they must walk the dog(s) on a leash and maintain at least 6 feet distance from other people and animals, per CDC recommendations. Also, if a dog guardian has been diagnosed with COVID-19, or has had close contact with someone else who has within the past 14 days, a dog walker may not walk that individual’s dog in a group with dogs from other households and should use extra precautions to protect themselves from the risk of transmission.

(Amended 5/7/2020, 6/8/2020)

Can I go to a vet or pet hospital if my pet is sick?

Yes. Please call first to determine if the vet has any restrictions in place.

Can I take my dog to a groomer?

Yes, but you must drop off and/or pick up your dog curbside/outside. Customers are encouraged not to enter dog grooming facilities at this time. Also, per CDC recommendations not to let pets interact with people or other animals outside the household, dog grooming personnel should prevent dogs from interacting with other people or dogs to the greatest extent feasible.

Can I take my pet to a kennel?

Yes, but you are encouraged to drop off and/or pick up your pet curbside/outside. Customers are not allowed to enter kennel facilities at this time. Also, per CDC recommendations not to let pets interact with people or other animals outside the household, kennel personnel should prevent pets from interacting with other people or animals to the greatest extent feasible.
I don’t cook—how can I purchase meals?

Restaurants, cafes, food trucks, and similar establishments are encouraged to remain open to supply meals to the public via delivery, carryout and outdoor dining. You can also purchase prepared foods at grocery stores, supermarkets, certified farmers’ markets, convenience stores, and other such food retailers.

How can I access free or reduced-price meals for myself or my family?

Schools, soup kitchens, food banks, and other entities that provide free or reduced priced food or meals to the public are encouraged to continue providing these services. You must pick up and take away the food or have it brought to you. Do not eat on the premises.

Can I carry out a court-ordered visit with my kids?

Yes. The Order exempts travel by court order or law enforcement.

Can I still access necessary items in my self-storage unit?

Self-storage facilities are not essential businesses, but they can maintain minimum business operations and allow people to access their units to the extent they are accessing them for medical or related needs, or in furtherance of a pre-scheduled move permitted by the Order.

Can common recreational spaces in apartment buildings (like gyms and roof decks) stay open?

For apartment dwellers, the Order’s shelter-in-place requirements for the “household or living unit” means their own apartment unit, not the building or complex as a whole. Indoor common recreational spaces shared with others in the apartment building or complex, like apartment gyms must be closed like any other public recreational space that contains high-touch equipment or encourages gathering. Outdoor common recreational spaces, like roof decks, dog relief areas, and shared yards may open subject to the following conditions:

- Shared equipment or furniture such as barbecue grills, tables, or chairs must be off-limits, with signage and with physical barriers as appropriate;
- Everybody using the space must wear a face covering;
- Everybody using the space must strictly comply with social distancing requirements including staying at least 6 feet away from other people;

Signage must be posted reminding people of the social distancing and face covering requirements.
What about common areas in apartments, like shared laundry rooms, that residents need to access for sanitation needs?

Apartment residents should be allowed to access facilities that are required for household cleaning and sanitation needs. Owners of apartment buildings must enhance cleaning of high-touch surfaces in these areas, and residents must observe all social distancing requirements in the Order, including maintaining at least 6 feet of separation from other people who are not part of their own household; washing their hands frequently for at least 20 seconds before and after use of the facilities (or using hand sanitizer); coughing or sneezing into a tissue or sleeve (not their hands); wearing a face covering when out in public; and avoiding using the laundry facility if they are sick.

(Added 4/6/2020; Amended 4/29/2020)

FACE COVERINGS

(Section added 4/20/2020; Amended to include outside businesses on 4/30/2020; Amended to include “Additional Businesses” on 5/18/2020; Amended 5/28/2020)

What if I can’t afford to buy a face covering or can’t find one for sale?

You can use many household goods, including a scarf or a bandana, to make a face covering. Really all you need is a t-shirt or fabric and two rubber bands. No sewing required. Here’s a how-to video that shows you how to make one: https://www.cdc.gov/coronavirus/2019-ncov/prevent-getting-sick/diy-cloth-face-coverings.html

How do I clean a face covering?

Normally running a non-disposable face covering through the laundry will work. Follow any care instructions that came with the face covering. More information can be found online here: https://www.cdc.gov/coronavirus/2019-ncov/prevent-getting-sick/diy-cloth-face-coverings.html.

The Face Covering Order says masks with one-way valves cannot be used. Why not?

The purpose of requiring Face Coverings be worn in public is to protect others from particles that you exhale when you breath, talk, cough, or sneeze. One-way valves, which typically look like a raised plastic disk about the size of a quarter on the front or side of the mask, put other people at risk because they allow easy flow of your breath out of the mask when you exhale. This results in an easy route for airborne droplets to be exhaled, but the purpose of the face covering is to limit droplets that you expel. Masks with one-way valves may also give others around you a false sense of security because they appear (but are not) safer than other types of masks. Because one-way valve masks to not protect others, they are not permitted.
Why can’t I just cover the one-way valve with tape?
One-way valves can be designed differently and are difficult or impossible to fully seal. Tape may not adequately cover the external vents, making it difficult for an others to know if the valve poses a risk to them.

Why am I now required to wear a Face Covering when within 30 feet (10 yards) of someone when we’re outdoors? I thought the six-foot rule for social distancing applied.
As San Francisco moves into later stages of reopening and as the weather permits more outdoor activities, there will be more people enjoying outdoor spaces. The revised 30 foot (10 yard) rule gives people extra time to put on a Face Covering when they see that they may be approaching each other and to ensure that everyone is wearing a Face Covering when they reach six feet of each other.

Do I have to wear a Face Covering if I am sitting or just standing outside with members of my household?
If you are outdoors alone or with members of your own household, are stationary, and are maintaining at least 6 feet between you and others from outside your household, you do not need to wear a Face Covering as long as you have one readily available. For example, if you are picnicking in a public park on a blanket that is at least 6 feet from others, a Face Covering is not required.

Do I need to wear a Face Covering if I am eating or drinking outside?
As long as you in a group of 6 or fewer people you may remove your Face Covering while you are eating or drinking outside.

Does the City make Face Coverings available?
The City does not provide Face Coverings to members of the public. However, Face Coverings can be made from many household goods, including a scarf or a bandana. You may also make your own Face Covering using a t-shirt or fabric and two rubber bands. Here’s a how-to-video that shows you how to make one: https://www.cdc.gov/coronavirus/2019-ncov/prevent-getting-sick/diy-cloth-face-coverings.html

Can I use an N95 mask?
Yes, except that you may not use N95 masks that have a one-way valve. You should also avoid purchasing medical grade masks like N95 masks and surgical masks because they are still in short supply and should be reserved for health care providers and emergency responders.
The Face Covering Order talks about children 2 years old and under not being allowed to wear a face covering. Why is that?

Children 2 years old and under cannot safely use a face covering. There could be a risk of suffocation for children so young.

Is a child between 3 and 12 years old required to wear a face covering?

No. Children from 3 to 12 years old may wear a face covering, but it is not required. Parents and caregivers must supervise use of a face covering by children in this range to avoid misuse. Supervision may look different based on the age and maturity of the child. For some children, having a discussion may be sufficient. For younger children, parents and caretakers should be present during use by the child. Parents and caregivers should use their judgement.

I operate an Essential Business, Outdoor Business, Additional Business, or another business or facility that is permitted by the shelter in place order to operate. What am I required to do under the Face Covering Order?

Generally you must ensure that your employees and other staff wear a face covering in any area when working with the public or in areas where customers or the public may be present, even if there are no customers or members of the public present at the time. This is to avoid the spreading of respiratory droplets in areas where customers or the public may be at some point. Employees also must wear masks if co-workers are nearby or when they are in a common area, such as a hallway, stairway, elevator, or parking facility. Employees who share office space or equipment, such as tools or computers, must also wear a Face Covering even when others are not present.

You are also required to post at sign at entrances notifying people that they are not permitted in without a face covering and that they will not be served if they are not wearing a face covering. You should also not serve anyone over the age of 12 who is not wearing a face covering unless they are excused by the Face Covering Order from wearing a face covering.

What are the reasons that someone is allowed not to wear a face covering in an Essential Business, Outdoor Business, Additional Business, or when around other people who are not members of their own household?

The following are exceptions to the requirements for wearing a face covering when in essential businesses or outdoor businesses or when other people are around:

- A child 12 years old or younger;
- A medical professional has advised you that wearing a face covering may pose a risk to your health, and you have documentation of that advisement;
- Wearing a face covering would create a risk to you related to your work as determined by local, state, or federal regulators or workplace safety guidelines;
- You have trouble breathing;
- You are unconscious, incapacitated, or otherwise unable to remove the face covering without assistance;
- You have a physical disability that prevents you from wearing a face covering;
- If you are deaf and use facial and mouth movements as part of communication, you can remove your mask while signing.

**What if my Face Covering gets wet from my sweat or from breathing through it?**

You can continue to wear your Face Covering even if it gets wet. Face Coverings help protect others by catching the droplets you expel from your mouth when you breathe, talk, cough or sneeze. Even wet Face Coverings can catch those droplets.

(Added 5/28/2020)

**Do I need to wear a Face Covering if I am exercising alone outdoors?**

If you are exercising outdoors, have a Face Covering visible and ready to use, and nobody is within 30 feet (10 yards) from you, then you do not need to wear a Face Covering. However, you must put your Face Covering on if you come within 30 feet (10 yards) of anyone else.

(Added 5/28/2020)

**Do I need to wear a Face Covering if I am biking, running, or hiking with someone from my household?**

No. However, even if you are spending time outside primarily with members of your own household, you are likely to see other people as well. You must therefore have a Face Covering readily available and put your Face Covering on if you come within 30 feet (10 yards) of anyone else.

(Added 5/28/2020)

**What if a one-way valve mask helps me when I’m running?**

One-way valves, which typically look like a raised plastic disk about the size of a quarter on the front or side of the mask, put other people at risk because they allow easy flow of your breath out of the mask when you exhale. This results in an easy route for airborne droplets to be exhaled, but the purpose of the face covering is to limit droplets that you expel. Masks with one-way valves may also give others around you a false sense of security because they appear (but are not) safer than other types of masks. Because one-way valve masks to not protect others, they are not permitted. You may, however, use a looser fitting option like a gaiter or bandana.

(Added 5/28/2020)

**I run an essential business, additional business, or outdoor business. How do I deal with children who are not wearing a face covering?**

Children between 2 and 12 years old are not required by the Face Covering Order to wear a face covering, but they also should not jeopardize social distancing for others in the area. You may ask a parent or caregiver if they have a face covering they can use for a child. If the child is putting other customers or the public at risk through their
conduct, you can ask the parent or caregiver to prevent that behavior. You may warn them that they may be told to leave if they cannot prevent the misconduct.
(Added 5/28/2020; updated 6/15/2020)

Can I use a plastic Halloween mask for myself or my child as a face covering?
No. Face coverings cannot cover the eyes or forehead. Also, a face covering should conform with the nose and mouth fairly well, and a rigid plastic mask would not do this.
(Added 5/28/2020)

Am I required to wear a face covering when I’m driving my car?
No, so long as you are the only person in your car or you are with members of your own household and nobody else. If you operate a taxi, ride-share vehicle, or private town car, you must always wear a face covering in that vehicle regardless of whether someone else is in the vehicle to avoid breathing droplets that could contaminate areas where guests or customers will sit and touch.
(Added 5/28/2020)

Am I required to wear a face covering on public transit and while waiting for public transit?
Yes. A face covering is required of anyone over 12 years old while waiting for or on public transit, including the operator of the vehicle.
(Added 5/28/2020)

Do I need to wear a Face Covering when I am in common areas at work?
Yes. Face Coverings must be worn when you are walking through common areas at the workplace, such as hallways, stairways, elevators, and parking facilities.
(Added 5/28/2020)

Can I eat with my friends at work?
You may remove your Face Covering to eat or drink, but only if nobody else from outside your household is within 6 feet of you.
(Added 5/28/2020)

Do I need to wear a Face Covering when I am in my private office?
You do not need to wear a Face Covering if you are alone in a private office that is not shared with others and is not likely to be visited by others without prior warning, such as an office with a closed door. If another person enters the area, both of you must immediately put on a Face Covering during the interaction.
(Added 5/28/2020)
Do I need to wear a Face Covering at work if someone else uses my workspace on another shift or during a different day of the week?

Yes. You must wear a Face Covering at work even if you are working alone if you are in a space where others are regularly present. For example, if you share your office or desk with others on an alternating schedule or if you share equipment, such as tools or computers, you must wear a Face Covering while in the office due to the risk of contaminating surfaces that others will soon touch.

(Added 5/28/2020)

Am I required to wear a face covering at home?

No. The Face Covering Order does not require you to wear a face covering at home, but if you or someone at home is sick, a face covering can be used to reduce exposure. You should contact your healthcare provider if you or someone in your home is sick.

I’m going to my doctor or health care provider for an appointment. Am I required to wear a face covering?

Yes. You should wear a face covering when in an environment with other people you do not live with. But your health care provider can allow you to remove the face covering as appropriate in the context for purposes related to your care.

I am unable to wear a face covering due to a health condition or physical disability, or because I rely on my mouth and face to help communicate (such as with American Sign Language). Am I required to wear a face covering?

Generally no. The Face Covering Order contains exceptions for health conditions or for those with difficulty breathing. For someone who relies on the visibility of their mouth to help communicate (such as with American Sign Language), a face covering should be used when not communicating. For someone with a long-term condition that makes it impossible to wear a face covering, you should consult with your healthcare provider for advice on how to best protect yourself and others when in public. You should also get documentation from a medical professional showing they have advised you to not wear a face covering.

(Added 5/28/2020)

HEALTHCARE OPERATIONS

What should I do if I’m sick? If I or a family member need immediate medical attention, can I leave home to go to the doctor or hospital?

Call 911 or go to an emergency room if you are experiencing a medical emergency. If you are feeling sick, first call your doctor, a nurse hotline, or an urgent care center before going to the hospital. Do not go to the emergency room of a hospital unless you are having an actual emergency. But you can and should seek medical advice if you or a family member is sick. If it is not an emergency, please contact your primary care...
provider to determine next steps. Also, you can check online resources to help you assess symptoms if you are worried about whether you or a loved one has COVID-19. You should check [https://www.cdc.gov/coronavirus/2019-ncov/index.html](https://www.cdc.gov/coronavirus/2019-ncov/index.html) for more information.

**Can I get my prescriptions or other healthcare needs? Can I leave home to go to the pharmacy to get my prescription filled?**

Yes. Drug stores and other medical supply stores are allowed and encouraged to operate. When possible, you should have prescription medicines and healthcare supplies delivered to your home.

**I have a doctor’s appointment next week for routine medical care. Can I go to that appointment?**

Probably not. Under a separate order (Order No. C19-08), the Health Officer has ordered all medical providers (such as doctors, and ophthalmologists) and healing arts practitioners (such as massage therapists, chiropractors, and acupuncturists) to postpone routine appointments except in certain situations. You should contact your healthcare provider to discuss whether your appointment can be postponed without a negative medical or health impact on you. If so, it should be postponed or conducted remotely. Even if your appointment is essential and cannot be postponed, your appointment should occur remotely if possible. Medical providers and healing arts practitioners can only permit an essential, in-person appointment after doing a screening of you by phone in advance for symptoms and following protective Social Distancing Requirements.

(Added 4/2/2020; Amended 5/18/2020)

**Can our hospital or outpatient surgery center start to perform elective surgeries?**

Yes. The Health Officer has issued a directive that permits elective surgeries to occur subject to specific safety protocols to avoid putting the patient or the surgical staff at undue risk. Also UCSF has different rules that apply because it is a state institution. It has recently begun performing elective surgeries according to its own safety protocols under the state health order.

(Added 5/6/2020; Amended 5/18/2020)

**Q: I work at a doctor’s office, health clinic, talking therapy office, physical therapy office, acupuncture studio, or other licensed provider of Healing Arts that is licensed by the State of California. I know the state is starting to re-open certain activities. Can my office start providing care to clients or patients in person?**

A: No, not yet, with a few exceptions. San Francisco Health Officer Order No. C19-08 (available online [here](https://www.cdc.gov/coronavirus/2019-ncov/index.html)) currently allows certain doctors, dentists, counselors, and other
Healing Arts practitioners to meet with patients or clients in person for essential care where a patient or client would suffer a negative medical or health impact without the care and where certain infection control practices are in place. That order also permits all tele-medicine or remote visits to occur. Other clinical visits are not yet allowed. The Health Officer is working on a revision to that order that will permit clinical visits to occur subject to specific safety protocols to avoid putting the patient/client or the office staff at undue risk. The new order is expected to be issued before May 11, 2020.

(Added 5/6/2020)

**Can I still go to my mental health or counseling appointments?**

Probably not in person, but you can participate remotely. Under a separate order (Order No. C19-08), the Health Officer has ordered all counselors, including psychologists, marriage and family therapist, and licensed clinical social workers, to postpone in-person routine counseling appointments or conduct them by phone or videoconference. You should contact your mental health provider or counselor to discuss whether your appointment can be held via phone or videoconference, can be postponed, or should proceed in person.

(Added 4/2/2020)

**What mental health resources are available for people experiencing distress?**

People who may be experiencing distress or heightened anxiety right now can contact the Peer-Run Warm Line for Coronavirus (COVID-19) Support 24 hours a day, 7 days a week at 855-845-7415. Additional resources, including online support, are available [here](#). If you are experiencing an emergency please call 911 immediately.

(Added 4/12/2020)

**What should I do if I am experiencing domestic violence?**

In an emergency, call 911. If it is not safe to call 911, you can text to 911. Other non-emergency resources include:

- National Domestic Violence Hotline: 1-800-799-7233
- La Casa de las Madres Crisis Line (Adult Line): 1-877-503-1850
- La Casa de las Madres Crisis Line (Teen Line): 1-877-923-0700
- Asian Women’s Shelter Crisis Line: 1-877-751-0880
- Saint Vincent de Paul Society—Riley Center Crisis Line: 415-255-0165
Additionally, the San Francisco Police Department’s Special Victim’s Unit has an on-call team 24/7 and is reachable at 415-553-9225.

(Added 4/12/2020)

**What should I do if I am experiencing child abuse or suspect that a child is being abused?**

In an emergency, call 911. If it is not safe to call 911, you can text to 911. Also, if you are experiencing abuse or suspect that a child is being abused, you should call the SF Child Abuse Hotline at 1-800-856-5553.

Parents in need of support should call the 24-Hour crisis line for parents. The TALK Line (415-441-KIDS) is a crisis and counseling line for parents that is answered by a live person 24 hours a day, every day. It is a program of Safe & Sound and offers compassionate support over the phone to parents and caregivers of children under the age of 18 in the Bay Area. The TALK Line operates round-the-clock and is staffed by trained volunteers who provide support through the numerous challenges found in life and parenting.

(Added 5/18/2020)

**Can I still go to my substance abuse treatment groups (e.g. Alcoholics Anonymous or Narcotics Anonymous) or other group counseling sessions?**

Yes. But all participants in group counseling services should attend meetings remotely if they are equipped to do so. Groups should make accommodations for remote support to the maximum extent feasible. If remote participation is not feasible or advisable under the circumstances, participation may occur in person provided that there is compliance with the social distancing requirements set forth in the Order, including maintaining at least 6 foot distance between individuals and capping group size to reduce in-person interactions.

**Can and should I donate blood if I am healthy?**

Yes, blood banks, blood donation centers, and blood drives are exempt health care operations. If you are healthy and do not have COVID-19 symptoms, you are encouraged to donate. The need for adequate blood donations from healthy people is critical.

**Should cafeterias in hospitals be closed?**

No. Hospital cafeterias fall within the exemption for healthcare facilities and may remain open. Hospital cafeterias must be structured to ensure six-foot minimum distancing between non-related individuals picking up food from or eating in the facility. Hospital cafeterias should increase cleaning and sanitization to minimize risk of exposure and follow other Social Distancing Requirements specified in the Order to the maximum
extent feasible. Cafeterias in all other facilities must follow the requirements in the Order – specifically, food can be carried out or delivered, but cannot be eaten in the cafeteria.

I work in a hospital or medical clinic, but I’m not sure I’m essential. Should I continue to work? What if I’m over 60?

Yes. All employees of hospitals, clinics, and other organizations that provide health care, provide services to healthcare organizations, provide needed supplies to health care organizations, or otherwise maintain health care operations of all kinds may continue working.

The Health Order does not advise or encourage health care workers over 60 to stop reporting to work.

What if I am diagnosed with the COVID-19 virus or have been exposed to someone who was?

If you have been diagnosed with the COVID-19 virus, you will need to be isolated to protect those around you. If you were exposed to someone who was diagnosed with the COVID-19 virus, you should quarantine for the recommended time to not expose others if you happen to have the virus yourself. Contact your healthcare provider if you have additional questions, or go to the DPH website at www.sfdph.org.

(Added 4/2/2020)

CARETAKING AND EDUCATION

Can I visit loved ones in the hospital, nursing home, skilled nursing facility, or other residential care facility?

Generally, no. There are limited exceptions, such as if you are going to the hospital with a minor who is under 18 years old or someone who is developmentally disabled and needs assistance. For most other situations, other existing Orders of the Health Officer addressing this emergency prohibit non-necessary visitation to these kinds of facilities. If you need to know more, please contact the facility you want to visit by phone before you leave. This is difficult, but it is necessary to protect hospital staff and other patients.

Can I leave home to care for my elderly parents or friends who require assistance to care for themselves? Or a friend or family member who has disabilities?

Yes. But be extremely cautious when providing care to vulnerable people and ensure that you protect them and yourself by following social distancing guidelines such as washing hands before and after, using hand sanitizer, maintaining at least 6 feet of distance when possible, wearing a face covering, and coughing or sneezing into a tissue.

(Amended 4/29/2020)

Are childcare facilities allowed to operate?
As of May 18, childcare establishments and other educational or recreational institutions or programs can operate to provide care or supervision for children of all ages to enable people to work for an Essential Business, Outdoor Business, or Additional Businesses; perform minimum basic operations for a business; or work as an essential governmental employee—whether those people are working from home or from a business facility (e.g., a doctor doing telemedicine from home).

Starting on June 1, childcare facilities can provide care or supervision for all children, subject to the following conditions:

1. State-licensed Childcare Programs for children ages 0-5 years must currently limit group size to 10 children per room or space under state licensing requirements, all other Childcare Programs must limit group size to 12 children per room or space.

2. Childcare Program sessions must be at least three weeks long, and childcare programs without set sessions may not enroll children for fewer than three weeks.

3. Childcare Programs must comply with all of the requirements set forth in the relevant industry-specific Health Order directive, including the requirements to have the parent(s) or guardian(s) of any child attending the program sign an acknowledgement of health risks, and to prepare and implement a written health and safety plan to mitigate the risk of virus transmission to the greatest extent feasible.

**Can childcare programs have 10 children or 12 children in a group?**

California no longer requires groups to be capped at 10 children in state-licensed childcare programs. So all childcare programs may now have up to 12 children in a group, subject to space constraints and social distancing requirements.

(Added 6/15/2020)

**Can summer camps operate?**

Starting on June 15, summer camps and summer learning programs may operate, subject to certain conditions. Summer camps must follow these requirements:

1. Limit group size to 12 children (a “pod”) per room or space

2. Sessions must last at least three weeks.

3. Children must remain in the same pod for at least three weeks, and preferably for the entire time throughout the summer.

4. Summer Camps may not begin to operate before June 15, 2020. They also cannot begin operating until they have complied with all of the requirements set
forth in the relevant industry-specific Health Order directives, including the requirements to complete an online form with general information about the program and required certifications, to have the parent(s) or guardian(s) of any child attending the program sign an acknowledgement of health risks, and to prepare and implement a written health and safety plan to mitigate the risk of virus transmission to the greatest extent feasible.

(Added 5/22/2020, Amended 6/15/2020)

Can I enroll my child in multiple camps? (For example one camp on Mondays and another on Wednesdays? Or one camp in the morning and another in the evening?)

No, children and youth may only enroll in one camp at a time. If the child or youth leaves a camp early, they may not attend another camp until 3 weeks after the first camp started.

(Added 6/15/2020)

I am a nanny. Will I get in trouble if I go to work?

You won’t get in trouble if you go to work. The Order allows nannies and childcare providers caring for a child in the child’s own home to continue working.

Can I have a tutor come to my home to work with my child?

Yes. A tutor may come to your home to work with your child, subject to the following conditions:

• Everybody in the home must wear a face covering, unless exempt from the face covering requirement under Health Order No. C19-12b;
• The tutor should stay at least 6 feet away from the child to the greatest extent feasible; and
• Windows and doors should be left open to the greatest extent feasible to increase ventilation.

(Added 6/15/2020)

Can music schools, dance studios, job skills classes, and other youth and adult education programs remain open to provide distance learning?

Yes, these programs can still provide distance learning to their students, meaning that they may live stream or record sessions that are available to students on their devices. Staff may go to work for the purpose of providing distance learning to their students, but they must comply with social distancing requirements while at work including requirements that may limit the type of instruction that can be given (e.g., a video demonstration of couple dancing may not be given if the couple are not in the same
household). And staff must limit the number of people needed to perform the video stream, and no more than 12 people total.
(Added 5/4/2020)

**BUSINESSES**

**Are all business offices required to close?**

The current Order requires that all staff who can work from home continue to do so, but allows for those staff that are necessary for operations and cannot work remotely to return to office facilities under the guidelines outlined in Directive 2020-18, posted at [http://www.sfdph.org/directives](http://www.sfdph.org/directives).

Non-essential businesses are required to limit the number of people in the office (including personnel and members of the public) as set forth in the directive. For example, businesses with 20 or more personnel can have people representing no more than 20% of the business facility’s normal maximum occupancy there at any time, and may need to have less than that so everyone can maintains six feet apart at all times.

Employees may otherwise work from home.
(Added 4/29/2020; 5/18/2020; 6/15/2020)

**Can coworking spaces reopen?**

Coworking space can re-open on June 15, 2020, subject to the following conditions:

- The business must limit the number of people in the facility so that everyone can comply with Social Distancing Requirements;
- Everybody in the facility must wear a face covering at all times unless;
- The business must create, post and implement a Social Distancing Protocol (Appendix A of the Order) and implement all of the requirements set forth there; and
- The business must comply with the relevant provisions of the Health Officer Directive No. 2020-18 regarding office facilities.

(Added 6/15/2020)

**What if my business is not considered an Essential Business, Outdoor Business, or Additional Business? Does this Order require that I shut down my business facility?**

Yes, it does, except for “Minimum Basic Operations,” which are defined in the following excerpt from the Order:

i. The minimum necessary activities to maintain and protect the value of the business’s inventory and facilities; ensure security, safety, and sanitation; process payroll and employee benefits; provide for the delivery of existing
inventory directly to residences or businesses; and related functions. For clarity, this section does not permit businesses to provide curbside pickup to customers.

ii. The minimum necessary activities to facilitate owners, employees, and contractors of the business being able to continue to work remotely from their residences, and to ensure that the business can deliver its service remotely.

Other than to maintain minimum basic operations, your employees can only work remotely from their residences. Any employees who are onsite must strictly follow the Order’s social distancing requirements, including maintaining a distance of six feet from one another (unless incompatible with the job duty), frequently washing hands with soap and water for at least 20 seconds or using an effective hand sanitizer, covering coughs and sneezes, wearing a face covering, and avoiding all social interaction outside the household when sick with a fever or cough.

(Amended 4/29/2020; 5/18/2020)

I have been told by City officials that my business has to temporarily shut down or change its operations under the Order. Can I request reconsideration of this decision?

A business can request reconsideration of a directive to temporarily shut down or change its operations by emailing HealthOrderAppeals@sfcityatty.org. You may also seek reconsideration if you think your business is entitled to open under changes made to the order under, but you have been told you may not reopen. The email should include: the name of the business and its street address; the business’s manager/contact (along with a direct telephone number and email address); the directive the business was given and the name of the City official who communicated it to the business; and an explanation of why the business believes the directive was mistaken, with reference(s) to the relevant provision(s) of the San Francisco Health Officer Order.

(Amended 4/24/2020)

I operate an indoor store that sells only non-essential goods (for example, books, records, games, jewelry, or apparel). Can I continue to sell products to customers at my storefront?

As of May 18, retail stores were allowed to reopen for curbside/outside pickup of goods as long as the store has direct access to immediately adjacent sidewalk, street, alley, or parking area for pickup by customers. Starting June 15, customers may enter the store as long as the retailer has appropriate health safeguards in place. (For more information, see the “Retail and Associated Business” section below.) In addition, your store may ship or deliver items directly to customers’ residences.

(Added 4/7/2020; Amended 4/29/2020, 5/18/2020, 6/15/2020)
I work for a large technology company that provides products and services that the public needs to access critical services. Is my company being completely shut down?

No. But most employees of these companies need to work from home. The only employees of these companies who can go to work are: (i) employees who are needed to maintain the minimum basic operations described in the Order; or (ii) employees who are needed to work onsite to operate, maintain, or repair Essential Infrastructure (i.e., essential global, national, and local infrastructure for internet, computing services, business infrastructure, communications, and web-based services for the community) and who cannot perform their work duties from home.

Any employees who are onsite must strictly follow the Order’s social distancing requirements, including maintaining a distance of six feet from one another (unless incompatible with the job duty), frequently washing hands with soap and water for at least 20 seconds or using an effective hand sanitizer, covering coughs and sneezes, wearing a face covering, and avoiding all social interaction outside the household when sick with a fever or cough.

(Amended 4/29/2020)

Does the Order require that businesses stop work that is necessary to our healthcare system?

No. The Order exempts any business that is performing work related to the delivery of health care, including hospitals, clinics, COVID-19 testing locations, dentists, pharmacies, blood banks and blood drives, pharmaceutical and biotechnology companies, other healthcare facilities, healthcare suppliers, home healthcare services providers, mental health providers, and veterinary care and all healthcare services provided to animals.

Are non-profit organizations allowed to continue operating?

Yes, if they provide essential services (or run an Outdoor Business or Additional Business) as described in the Order. This would include non-profits operating food pantries, providing housing for homeless residents, and providing other critical services. Non-profit organizations that do not provide essential services cannot continue operating their facilities, except to provide minimum basic operations, such as maintaining the value of inventory, keeping the site safe and secure, providing for the delivery of existing inventory to residences or businesses, or ensuring that employees are able to work remotely. All employees may also work remotely from their residences.

All employees must strictly comply with the Order’s social distancing requirements, including maintaining a distance of at least six feet from one another (unless closer contact is necessary for their work), frequently washing hands with soap and water for at least 20 seconds or using an effective hand sanitizer, covering coughs and sneezes, wearing a face covering, and avoiding all social interaction outside the household when sick with a fever or cough.

(Amended 4/29/2020, 5/19/2020)
Can bike repair shops continue to operate?
Yes, bike repair shops are treated as an essential business (the same as auto repair shops) because they are necessary to facilitate essential travel.

Can my company continue to provide janitorial services to businesses?
Yes, janitorial services are allowed because they are necessary for health and sanitation.

Can grocery stores, farmers markets, and other food retailers remain open?
Yes. Grocery stores, certified farmers' markets, farm and produce stands, supermarkets, food banks, convenience stores, and other food retail establishments selling foods items and non-alcoholic drinks are encouraged to stay open to provide food items and pet supplies to the public. When visiting these places, you must help the retailer maintain Social Distancing Requirements, including while you are shopping and standing in line. They are also required to prepare, post and implement a Social Distancing Protocol and to comply with Health Officer Directive 2020-07.

What best practices should farmers’ markets follow to reduce the risk of transmission?

Spacing:
• All vendors are spaced at least 6 feet apart from one another. As each booth is at least a 10ft square, this offers 16 feet between the start of one tent and the start of another.
• All vendors are required to put a physical barrier (such as caution tape) between them and the produce they are selling.
• No produce sampling.
• No seating.
• All prepared foods must be served to go.
• Customers ask a staff person at the booth for pre-bagged or bunched items, and then it is handed to the customer in a bag--no self-selection of produce.
• Chalk demarcations on the ground to indicate where shoppers should stand behind others, while waiting to purchase produce.
• Any seller who does not abide by these requirements will not be allowed to sell product.

Signage
• Posting signage at each stand about the Public Health Order in multiple languages
• Prepare, post and implement a Social Distancing Protocol

Sanitation
• Whenever possible, someone else at a farm booth handles the payment so that money is only being handled by one staff person who is not then touching produce.

• Staff and sellers are required to wear gloves.

• Provide handwashing stations throughout the market with soap and warm water and tissues.

**Security (crowd control)**

• Have security to ensure social distancing of patrons.

Farmers markets are also required to comply with Health Officer Directive 2020-07. (Added 4/2/2020)

**My liquor license permits my establishment to sell poured beer, wine, and cocktails in conjunction with a bona fide meal. May I hand the customer their drink while the customer waits for the meal?**

No. Customers cannot be given their alcoholic beverages until they receive their bona fide meal. A bona fide meal does not include snack items or appetizers, and must be more substantial than just a sandwich or salad. Furthermore, unless the establishment meets the definition of an Outdoor Dining Establishment under Health Directive 2020-16, the alcoholic beverage must be provided for take-out. This means packaged in a container with a secure lid or cap and in a manner designed to prevent consumption without removal of the lid or cap (e.g., no lids with sipping holes or openings for straws). Failing to do so may subject your customers to criminal citation for violating open container laws, and may subject your business to criminal citation for causing gatherings of people from different households in violation of the Health Order and for causing a public health hazard. Such violations will be reported to the Alcoholic Beverage Commission for investigation and potential suspension or revocation of your license or to-go privileges. Finally, you also must follow all regulatory guidance on the ABC’s website, [https://www.abc.ca.gov/law-and-policy/coronavirus19/](https://www.abc.ca.gov/law-and-policy/coronavirus19/), including posting signage warning your customers of the consequences of violating open container laws, [https://www.abc.ca.gov/notice-of-regulatory-relief/](https://www.abc.ca.gov/notice-of-regulatory-relief/) and advising your customers that they may not consume their food or drink until they are home.

(Added 5/22/2020; Amended 5/28/2020; Amended 6/15/2020)

***Can Outdoor Dining Establishments serve alcoholic beverages for on-site consumption?***

Yes, if the alcoholic beverage is served with a bona fide meal. Outdoor Dining Establishments must comply with all permit and zoning requirements. Relevant permits include those necessary for use of outdoor space (e.g. Shared Spaces program and zoning approvals), and ABC regulations. More information on the Shared Spaces program is available [here](https://www.abc.ca.gov/notice-of-regulatory-relief/).
On May 20, the California Department of Alcoholic Beverage Control issued a Fifth Notice of Regulatory Relief that allows bars without food preparation facilities to serve drinks to-go with a bona fide meal prepared by another business that is permitted to prepare and offer bona fide meals for sale to the public. Does this mean that my bar can serve food prepared elsewhere and open under the Health Order?

Yes, but you may only sell an alcoholic beverages to a customer together with a bona fide meal, and you must strictly follow all of the requirements imposed by the ABC’s Fourth and Fifth Notices of Regulatory Relief, https://www.abc.ca.gov/fifth-notice-of-regulatory-relief/, and all of the requirements listed in the previous FAQ. Also, you must abide by any Health Officer Directive that applies to restaurants.

(Added 5/28/2020; Amended 6/15/2020)

With the Health Order now allowing curbside retail, can my bar offer curbside/out-the-door sales of sealed bottles?

As permitted by the California Department of Alcoholic Beverage Control’s First Notice of Regulatory Relief, https://www.abc.ca.gov/notice-of-regulatory-relief/, a bar with an on-sale license is now temporarily allowed to act like a store and make retail sales to go (at the doorway or curbside) of manufacturer-sealed bottles and cans of the same alcoholic beverages that their ABC license allows them to sell (a bar licensed to serve beer and wine only can sell bottles of beer and wine, not liquor). This exception does not allow a bar to pour beer, wine, liquor, or mixed drinks. You must strictly follow all requirements imposed by the ABC. Furthermore, you must abide by any Health Officer Directive that applies to curbside retail, currently Directive No. 2020-10b. Finally, you must also advise your customers that they may not consume their purchases until they are home.

(Added 6/15/2020.)

I am in the business of manufacturing food that I supply to grocery stores and other food retailers. Am I required to shut down?

No. Businesses that supply food goods and prepared meals to grocery stores and other food retailers are essential and may continue operating.

I run a small fitness studio that offers 1:1 personal training. Am I allowed to re-open my facility?

No. Indoor training facilities are currently not allowed to open. If you would like to stream video sessions for clients, you may do so subject to the following requirements:
Can kids’ sports classes reopen as Outdoor Fitness Classes?

No. Outdoor Fitness Classes that are allowed to reopen under the Order do not include do not include classes directed to children under 18 years old, which are governed by separate rules and orders. But they may be allowed to operate as summer camps. Such recreational programs for children must be carried out in stable groups of 12 or fewer children by a provider or instructor that remains solely with a single group of children—i.e., who does not interact with more than one stable group of children in any given three-week period. See Stay-Safe-at-Home Order Section 15.f.xxvi. “Stable” means that the same 12 or fewer children are in the same group each day, for a minimum of three weeks, and are not attending any other program during the same three week period.

How should laundromats, and especially self-service laundromats, enforce the social distancing protocol?

Laundromats, like other essential businesses, are responsible for enforcing all the requirements in the social distancing protocol, including ensuring social distancing between customers, use of facial coverings at all times, and regularly sanitization of high touch surfaces such as coin machines, detergent machines, washer and dryer dials, folding tables, and chairs. Where possible, curbside drop-off is recommended. It is recommended that self-service laundromats employ an attendant during Shelter In Place to ensure the health and safety of customers in their facility. If a laundromat cannot employ an attendant, it should, at minimum ensure regular cleaning (no less than once every two hours) by dropping by the facility to inspect and clean. Alternatively, a laundromat may also provide cleaning supplies and/or wipes to customers to clean high touch surfaces before each use. These supplies must be properly secured to prevent theft and must be kept well supplied and located by high-
touch surfaces. If the laundromat provides self-service cleaning supplies, it must still clean the facility thoroughly at least once per day.

(Added 5/19/2020)

**What if I want to go to work at a physical location in San Francisco and I’m not sick?**

Unless your work is exempted in the Order, you cannot go to work at a physical location even if you want to. You can work from home for any business if your employer allows it and your work can be done from home.

**I operate a business that is required to close—can my business deliver things to people’s homes?**

Yes, non-essential businesses may maintain minimum basic operations. This includes making deliveries of existing inventory to people’s homes. As of May 18, you may also offer curbside/outside pickup to customers, subject to certain limitations set out in appendix C-1 of the Order.

(Added 5/18/2020)

**Are housekeeping/house cleaning services permitted?**

As of June 15, 2020, housekeeping and housecleaning and other indoor household services like cooking services and non-essential maintenance may resume, subject to conditions set forth in Appendix C-1 of the Order. If others are present while the home is being cleaned, they must strictly comply with social distancing requirements.

(Added 5/7/2020; Amended 6/15/2020)

**Is an in-home massage allowed as an indoor household service?**

No. Indoor household services include residential cleaning services, home cooking services, and non-essential maintenance. It does not include in-home services that are personal care, treatments, or personal grooming (such as massage therapy, acupuncture or other treatments, haircuts, manicures or make-up); those services will be addressed in a future reopening phase.

(Added 6/15/2020)

**Can gardening and landscaping services continue?**

Yes, arborists, landscapers, gardeners, and similar service professionals can operate as outdoor businesses, as that term is defined in the Order, but they must strictly comply with social distancing requirements.

(Added 4/29/2020; Amended 5/4/2020)

**Can my pool maintenance company come to my house or business?**

Yes, so long as the service is necessary to maintain safety and sanitation. Allowable operations include routine maintenance work like cleaning, chemical balancing and
adjustments, and filtration (necessary to, for instance, prevent pool algae from blooming) and safety-oriented repairs.

(Added 4/3/2020)

Can hotels operate?

At this time, hotels are only allowed to rent rooms to:

- Individuals traveling for or engaged in a business that is allowed to operate under the Order;
- Individuals engaged in Essential Activities—apart from outdoor recreation activities (This includes individuals staying overnight in the City to perform the essential activity of caring for the health and safety needs of a family member);
- Nurses, doctors, EMTs, police officers and other first responders who live outside the City and need housing in the City in between long shifts;
- Individuals who need shelter to avoid homelessness, domestic violence, child abuse, or other unsafe conditions; and
- Individuals isolating from other household members.

This does not include individuals vacationing, sightseeing, or generally visiting with friends or relatives.

(Added 6/17/2020)

Are short-term rentals such as Airbnb allowed?

Under the Order, short-term rentals can still operate to a limited extent, as described in the prior FAQ about hotels. The owner must comply with all local laws and regulations. And, between occupants, the owner must thoroughly clean and sanitize the unit, including sanitizing all surfaces and laundering all linens.

(Added 5/4/2020; Amended 6/17/2020)

Can hostels, or hotels with shared bathrooms, rent beds and/or rooms under the Shelter in Place Order?

Hostels, or hotels with shared bathrooms, may not rent out beds in a shared dormitory style-room with people already staying in that room. (Guests who have been sharing a room since March 16, 2020 may continue to share a room as they are considered one household.) However, if a hostel or hotel with shared bathrooms has empty rooms, it may rent out those empty rooms to Essential Workers, workers at Outdoor Businesses, workers at Additional Businesses, people in San Francisco for Essential Activities, or to those who would otherwise be without housing. No more than one person may stay in a room at any one time unless the person is also residing in the room with his or her pre-existing household. Common areas must be cleaned according to SFDPH’s
COVID-19 Minimum Environmental Cleaning Standards, available at https://www.sfdph.org/dph/alerts/files/COVID%E2%80%9019-Minimum-Environmental-Cleaning-Standards.pdf. Facial coverings and all other social distancing protocols must be observed in all other commons areas such as hallways and entry points.

(Added 5/28/2020)

Can real estate agents show residences or commercial properties in person?

Generally, no. Real estate agents, escrow agents, and other service providers that facilitate real estate transactions like home sales, apartment rentals, and commercial properties are essential workers, but all appointments and viewings must happen virtually (via video or livestream). If a virtual viewing is not possible, then a single photographer or videographer is permitted to visit the property once to take photographs and/or video. This should be done at a time when the occupant is not present in the residence. If these options are not possible, then in-person showings can occur by appointment with no more than two visitors at a time from the same household, and only one agent showing the property. In-person showings or walk-throughs are not allowed when the occupant is present in the residence. Commercial viewings should be limited to the minimum number of persons possible.

Are the following people permitted to operate under the Order as service providers that enable residential transactions:

- **Real estate inspectors and appraisers?**
  Yes, inspectors and appraisers are necessary to enable residential real estate transactions to occur.

- **Real estate photographers?**
  Yes, real estate photographers are necessary to enable virtual viewings and marketing to occur.

- **Real estate stagers?**
  Yes, given the modification to the San Francisco Health Order on May 4th allowing all real estate transactions and people to move residences, real estate staging may resume operations when no occupants are present at the home.

(Amended 4/24/2020; Amended 5/6/2020)

Can I move into a new house/apartment?

Yes, residential moves are allowed under the Order.

If moving into or out of the Bay Area region, individuals are strongly urged to quarantine for 14 days.

(Added 4/6/2020; Amended 4/29/2020, 5/14/2020)
I am a landlord for a unit where each of the tenants has a separate lease for a bedroom, and they share living, dining, and bathroom space. One of the bedrooms is vacant, and the others are occupied. Can I execute a lease and move in a new tenant into the vacant room?

No. Involuntary changes to the members of a household, or to the composition of individuals in a dormitory or shared bedroom setting, are not permitted at this time. (Added 4/7/2020)

**Can movers move non-essential offices or businesses during the SIP Order?**

Yes, like residential moves commercial moves are permitted—as long as all social distancing requirements are followed, including minimizing close contact to the greatest extent feasible. (Added 5/4/2020)

**Can notaries public continue to operate?**

Yes.

**Can I meet with a lawyer to prepare a will?**

Yes, legal and notary services related to planning for death or incapacity, such as preparation and execution of wills, trusts, financial powers of attorney, and advance health care directives are allowed under the Order. (Added 4/30/2020)

**Can pawn shops continue to operate?**

Pawn shops may continue to operate under the following conditions:

1. All facilities and stores entrances must remain locked at all times, except to allow employees and customers to enter and exit the facility;

2. The facility or store must be closed to the general public, except for customers who have made an appointment;

3. Operations must be limited to financial and lending services (e.g. issuing loans, modifying existing loans, or redemption of items in loan) unless the conditions and restrictions for retail sales are met;

4. All employees must wear gloves and masks during operations, except as required to examine items and comply with California Pawn & Secondhand Dealer Systems (CAPSS) reporting requirements;

5. All facilities and stores must make reasonable efforts to provide for contactless transactions or, if not feasible to do so, must the providing of employees and customers hand sanitizers and disinfecting all countertops, bins, payment portals, pens, and pawned items after each interaction with a client.

6. The facility or store must comply with all social distancing requirements, including creating and posting a social distancing protocol. (Added 4/6/2020; Amended 4/29/2020, 6/15/2020)
Are cannabis dispensaries allowed to operate?
Yes. Because cannabis has several medicinal purposes and is an essential medical treatment for many City residents, cannabis dispensaries are permitted to remain open, but only for delivery or takeaway. Cannabis dispensaries shall not permit products to be used or consumed on-site. In addition, while travel to and from cannabis dispensaries to pick up products is permitted, individuals are strongly encouraged to have cannabis products delivered to their home instead of obtaining them on-site. If in-store pickup is required, to the greatest extent feasible, dispensaries and patrons must comply with social distancing requirements, including by maintaining six-foot social distancing for both employees and members of the public, including any customers standing in line.

Can recreational cannabis be purchased on a “take-out” basis?
Yes, although dispensary patrons are strongly encouraged to have cannabis products delivered to their home instead of obtaining them on-site.

Can I have cannabis delivered to my home?
Yes. The Order allows businesses to deliver products to people’s residences, and a separate Health Order encourages people to obtain those products by delivery.

I work in a cemetery—can I go to work?
Yes, cemeteries are essential infrastructure.

Are funeral home providers and mortuaries allowed to continue operating?
Yes, funeral home providers and mortuaries may continue operating to the extent necessary to the transport, preparation, or processing of remains. This means that any employee necessary for the transport, preparation and/or processing of a body may continue to report to these facilities to conduct their work.

My business manufactures, supplies, or repairs cell phones. Can it stay open?
Yes. If your business is primarily engaged in supply or repair of cell phones or other telecommunications devices, then it is essential and may continue to operate under the Order for that purpose.

(Added 4/29/2020)

OUTDOOR BUSINESSES
What is an outdoor business? What requirements apply to them?
An outdoor business is a business that was primarily operating outdoors before March 16, 2020, and that has the ability to fully maintain social distancing of at least six feet between all persons. The Order provides some examples of common outdoor businesses, such as agricultural operations and landscaping and gardening services.

(Added 4/29/2020; Amended 6/15/20)
Are car washes allowed to continue operating under the Order?

Car washes that qualify as outdoor businesses under the Order may operate.

Can flea markets open?

Outdoor markets—like flea markets and art markets—that normally operated primarily outdoors before March 16, 2020 may operate under the Order as Outdoor Businesses. But they must comply with the following requirements. Any vendor who does not abide by these requirements may not continue to sell product.

Spacing:

- All vendors are spaced at least 6 feet apart from one another.
- All vendors are required to put a physical barrier (such as caution tape) between them and the products they are selling.
- Customers ask the vendor for items, and then it is handed to the customer—no self-selection of items or touching of items that the customer does not purchase.
- Chalk demarcations on the ground to indicate where shoppers should stand behind others, while waiting to purchase items.

Signage

- Posting signage at each stand about the Public Health Order in multiple languages

Sanitation

- Staff and sellers are required to wear gloves.
- Provide handwashing stations and/or hand sanitizer throughout the area.
- Provide for contactless payment systems or, if not feasible, sanitize payment systems, including touch screens, payment portals, pens, and styluses, after each customer use. Customers may pay with cash but to further limit person-to-person contact, Personnel should encourage customers to use credit, debit, or gift cards for payment.

Security (crowd control)

- Have security to ensure social distancing of patrons.
(Added 5/4/2020; Amended 5/7/2020)

Do outdoor businesses include gyms and trainers that before the emergency conducted outdoor exercise sessions like boot camps?

Beginning on June 15, 2020, outdoor fitness classes (e.g., outdoor boot camps, non-contact dance classes, tai chi, pilates, and yoga classes) may begin to operate subject to certain conditions, including classes no larger than 12 people (including the instructor), the instructor must ask each participant if they have certain medical symptoms, and everyone must stay at least six feet apart, among other requirements.
RETAIL AND ASSOCIATED BUSINESSES

(Section added 4/20/2020, Amended 6/15/2020)

My retail store had been offering curbside pickup. Can I now open up for customers to come inside?

Yes, provided you follow specific limitations and restrictions. These include:

- Putting in place a social distancing protocol
- Putting in place a health and safety plan
- Ensuring all personnel have face coverings
- Limiting the number people in the store (customers and personnel) to no more than 50% of the facility’s normal maximum occupancy, or even less if necessary for people to stay 6 feet apart from each other at all times

The full list of requirements and additional details can be found in the in-store retail directive at: http://www.sfdph.org/directives.

To minimize the number of customers entering the facility, retail businesses that open for in-store operations are strongly encouraged to continue offering alternatives to in-store shopping. For example, retail businesses should consider offering or enhancing policies permitting outdoor curbside pickup and drop-off of goods, scheduling of appointments, delivery, and e-commerce. Retail businesses offering curbside pickup or drop-off must continue following the best practices for curbside retail contained in Directive 2020-10b (and any future amendment to that directive) for those operations.

My retail store is located in an enclosed shopping center (e.g., Stonestown Galleria or the Ferry Building). Can I open for in-store shopping? What about curbside pickup?

Retail stores in an enclosed indoor shopping center that do not have direct access to adjacent sidewalk, street, parking lot, or alley area, may only reopen after the indoor shopping center obtains approval from the Health Officer.

If your store has an entrance that opens directly to an adjacent sidewalk, street, parking lot, or alley, it may open for curbside pickup or in-store shopping subject to limitations and safety requirements.

If your store does not have an entrance that opens directly to the outside—i.e., if the only way to enter the store is by going through an indoor space—it may not open for curbside pickup until the shopping center obtains permission from the Health Officer. A
shopping center that would like to reopen for its indoor retailers to do curbside pickup or in-store shopping ay submit a proposed plan to the Health Officer that includes:

- the number of retail stores that would be resuming operation;
- the number of employees who would be returning to work at those stores; and
- the specific social distancing/sanitation measures the shopping center would employ to prevent congestion at the doorways and streets, and to protect customers and employees.

Subject to the written approval of the Health Officer or the Health Officer’s designee, the shopping center may then operate for curbside pickup or in-store shopping consistent with the approved plan, including any conditions of approval for that plan.

Plans should be submitted to HealthPlan@sfcityatty.org.

(Amended 6/15/2020)

**There’s a metered parking space immediately outside the entrance to my store. How can I provide for use of that space for curbside pickup?**

You can request that the adjacent street parking be converted to temporary loading zone to help encourage physical distancing and reduce crowding. To do so, you can submit an online application [here](#).

**Can my business move its inventory outside to the sidewalk for sale?**

Yes, a store can display merchandise for sale on tables or otherwise outside the store, subject to the following conditions:

- The store must obtain any necessary permits from the City;
- Customers must either use hand sanitizer before touching items or ask the vendor to hand items to them;
- Only the number of customers that can maintain social distancing may approach the table at a time;
- Chalk demarcations must be placed on the ground to indicate where shoppers should stand behind others, while waiting to purchase items; and
- The store must take measures to help ensure against congestion and blocking passage by pedestrians, including people with disabilities.

Stores may apply for a free temporary permit to use the sidewalk or parking lane for retail operations at [https://sf.gov/use-sidewalk-or-parking-lane-yourbusiness](https://sf.gov/use-sidewalk-or-parking-lane-yourbusiness).

(Amended 6/17/2020)
Can I pass goods through an open window for curbside pickup or through an open door if I block entrance to the store with a table inside the doorway?

Yes. You may do both.

What safety protocols do I need to follow for me to begin operating my store for in-store shopping or curbside pickup?

You need to complete, post at your store, and implement a Social Distancing Protocol, which is a form attached to the Stay-Safe-At-Home Order and available here. You also need to develop and implement a Health and Safety Plan under the best practices directive that the Health Officer has issued—a template for that plan is available here. Operators of retail stores should read carefully the requirements for the Protocol and Plan. Implementation includes training your personnel about the requirements and providing for adequate social distancing and sanitation and wearing of face coverings.

CONSTRUCTION AND ESSENTIAL INFRASTRUCTURE

Are commercial, residential, and mixed-use construction projects allowed to proceed?

Yes. The Order allows all construction projects, including public works, public facilities, commercial, residential, and mixed-use projects, as well as remodel and renovation work, to proceed, as long as the projects comply with the Construction Safety Protocols listed in Appendices B-1 and B-2 of the Order. This range of construction projects is consistent with those that are permitted under the March 19, 2020 Order of the California State Public Health Officer (the “State Shelter Order”). The State Shelter Order allows workers to leave home who support the construction, operation, inspection, and maintenance of construction sites and construction projects, workers who support the supply chain of building materials, and workers who provide services that enable repair materials and equipment for essential functions.

May public works construction projects, such as schools, public buildings, street improvements, and transportation infrastructure, continue?

Yes, as long as the projects comply with the Construction Safety Protocols listed in Appendices B-1 and B-2 of the Order, or other safety protocol that the Health Officer specifies for public works construction projects.

May I get building permits or site inspections from the City for my construction project?

Yes. You may contact the relevant agency to determine how to arrange the service you need.
I have Code violations on my property and have been ordered to correct the violations. Can the abatement work be done while the Shelter in Place Order is in effect?

Yes. This work must comply with the Construction Project Safety Protocols in Appendices B-1 and B-2 of the Order, or the Social Distancing Protocols in Appendix A, as applicable.

May I conduct site assessment, remediation, or mitigation work that I have been directed to perform?

Yes. This work must comply with the Construction Project Safety Protocols in Appendices B-1 and B-2 of the Order or the Social Distancing Protocols in Appendix A, as applicable.

My business installs distributed solar, storage, and/or electric vehicle charging systems – may it continue to operate?

Yes, this is permissible construction activity and must comply with the Construction Project Safety Protocols in Appendix B-1 or B-2 of the Order. Businesses may also operate to manufacture distributed energy resource components, like solar panels.

Will private and public construction projects that are already underway be required to stop work if they cannot meet the safety protocols?

Yes. To proceed the projects must comply with the new protocols. In San Francisco, a Public Works Protocol will be issued, which must be followed for projects to proceed. The Public Works Protocol will be substantially similar to protocols currently in place, which the City developed in collaboration with industry and labor representatives.

Will all project have to stop work or delay start of construction until they have a trained third-party supervisor on site?

The third party supervisor does not need to be on site for the project to start, but must be ready to make site visits shortly thereafter. A company may use an outside consultant or contractor, or train one of their existing employees as needed. Projects may continue, and should make steps to have such a supervisor shortly. San Francisco does not have a training program for this supervisor, but industry groups may be able to help identify and train so that the industry can proceed safely.

How will the definition of a large construction project that contains 5 or more workers at a construction site be applied?

This definition only applies to construction of Essential Infrastructure, as defined in Section 16.c of the Order. Essential Infrastructure includes airports, utilities (including water, sewer, gas, and electrical), oil refining, roads and highways, public transportation, solid waste facilities (including collection, removal, disposal, recycling, and processing facilities), cemeteries, mortuaries, crematoriums, and telecommunications systems (including the provision of essential global, national, and local infrastructure for internet, computing services, business infrastructure, communications, and web-based services). In San Francisco, many of those are public works projects, which will be governed by the Public Works Protocol. The health officers
made this determination in maximize safety for workers and the community.

How will the staggering requirements for construction projects be applied?
The requirements to stagger trade-specific work and work schedules are intended to minimize the number of workers at the jobsite at any one time. It is not an absolute requirement to stagger all trades and workers at all times, because in some instances more than one trade will be necessary to be on site. In those instances, the direction is to minimize as much as possible. For smaller projects, Appendix B-1 provides that construction sites should stagger trades as necessary to reduce density and allow for easy maintenance of minimum six-foot separation. For larger construction projects, Appendix B-2 provides for 2 kinds of staggering. First, construction sites should stagger stop- and start-times for shift schedules to reduce the quantity of workers at the jobsite at any one time to the extent feasible. Second, construction sites should stagger trade-specific work to minimize the quantity of workers at the jobsite at any one time. The focus of this second requirement is to minimize the number of workers on the site and is not a prohibition against combining trades on-site.

Does the Order allow for state-mandated testing, operator inspections, and repairs of underground storage tanks?
Yes. State-mandated tests and operator inspections of underground storage tanks are essential activities and should continue under the Order. Repairs necessary to maintain the safety of underground storage tank systems and activities to respond to alarms and address unauthorized releases are also essential and should continue. All such work must be conducted in accordance with the Order, including adhering to social distancing requirements.

(Amended 5/1/2020)

GOVERNMENT OPERATIONS

Is the local government shutting down?
No. Essential governmental functions will continue, including first responders, emergency management personnel, emergency dispatchers, and law enforcement. Other governmental functions or offices may be subject to reduced schedules or may be closed as part of the effort to fight the spread of COVID-19. Each government agency identifies the services that qualify as Essential Governmental Functions, and designates the personnel who will continue providing those functions.

I work for the government—Can I continue to go to work?
As a government employee, you can continue to go to work if your employer designates you as an essential employee. Each governmental agency is responsible for determining which of its workers are essential workers.

Can I get a building permit or building inspection from the Department of Building Inspection for my construction project, or make sure my business gets the Fire Department’s fire safety and hazmat inspection that I need to keep operating?
Contact the relevant city agency to determine if it is still providing the service you need as an essential governmental function.

**TRAVEL AND RECREATION**

I don’t have a car. Can I ride the bus or train, or can I get a ride in my favorite ride-share/on-demand car service or a taxi?

Yes, but public transit, ride-hailing services, or any other way of traveling can only be used for essential travel, which means:

i. Travel related to the provision of or access to essential activities, essential governmental functions, essential businesses, minimum basic operations, Outdoor Activities, and Outdoor Businesses.

ii. Travel to care for any elderly, minors, dependents, or persons with disabilities.

iii. Travel to or from educational institutions for purposes of receiving materials for distance learning, for receiving meals, and any other related services.

iv. Travel to return to a place of residence from outside the City.

v. Travel required by law enforcement or court order.

vi. Travel required for non-residents to return to their place of residence outside the County. Individuals are strongly encouraged to verify that their transportation out of the County remains available and functional before commencing such travel.

vii. Travel to manage after-death arrangements and burial.

viii. Travel to arrange for shelter or avoid homelessness.

ix. Travel to avoid domestic violence or child abuse.

x. Travel for parental custody arrangements.

xi. Travel to a place to temporarily reside in a residence or other facility to avoid potentially exposing others to COVID-19, such as a hotel or other facility provided by a governmental authority for such purposes.

When you are on public transit, you must follow the Order’s social distancing requirements to the greatest extent feasible, including maintaining a distance of six feet from everyone outside your household or living unit, frequently washing hands with soap and water for at least 20 seconds or using an effective hand sanitizer, covering coughs and sneezes, wearing a face covering, and avoiding all social interaction outside the household when sick with a fever or cough.

When you use ride-share services for essential travel, keep in mind that you should avoid as much as possible being in close quarters in a vehicle that has been used by lots of other people.

(Amended 4/29/2020)

**Can I use a bike from a bike-share service?**

Yes, you can use shared bikes and scooters for essential travel, such as commuting to work as an essential employee. But keep in mind that shared bikes and scooters are
not routinely sanitized. Take precautions, including bringing sanitization wipes, not touching your face while on the bike or scooter, and washing your hands for at least 20 seconds immediately after.

Am I allowed to commute into or out of the City for work or daily activities?
Yes, but only to perform essential activities or essential government functions, operate an essential business, or perform minimum basic operations at a non-essential business, as those terms are defined in the Order. You can also leave to go back home or engage in other essential travel. Otherwise, the answer is no because that puts you and others in the community at risk. Keep in mind that Health Officers in neighboring counties have issued the same or similar shelter-in-place orders.

If I’m outside San Francisco travelling for vacation or business, am I allowed to come home?
Yes, the Order allows you to come home. But you may need to self-isolate for 14 days if you were possibly exposed to COVID-19.

I’m staying overnight here but live elsewhere. Can I go home?
Yes, you can leave the City to return home, but you are urged to self-isolate upon returning home.

The Order prohibits non-essential travel on foot or bike – can I still go on a walk or take a bike ride?
Yes. The Order allows you to go outside for exercise activities like walking and running, as long as you strictly follow social distancing requirements, including maintaining a distance of at least six feet from everyone outside your household or living unit.

I get anxious when I’m cooped up inside. Am I allowed to go on a hike? Can I go to a park or open space?
Yes. Spending time outside improves mood and well-being, and is particularly beneficial to children. You can go for walks, go to the park, and enjoy other outdoor activities. But operators of parks, beaches, and other open spaces may restrict entry, close certain areas, or close the whole facility altogether if the Health Officer orders those measures to reduce crowding and limit risk of COVID-19 exposure.

While you’re on a hike or enjoying an open space area, you must strictly follow social distancing requirements, including maintaining a distance of at least six feet from everyone outside your household or living unit.

Can I leave home to work out?
If you will be outdoors and not in close contact with other people, and will not be using equipment that other people outside your household have touched, yes. Otherwise, no. Fitness centers, gyms, recreational centers, fitness equipment at parks, climbing walls, basketball courts, swimming pools, and other shared sports facilities are closed.

(Amended 4/29/2020, 6/1/2020)

Can golf courses reopen under the new Order?
Outdoor recreation facilities that are not expressly prohibited by the Order, such as golf courses, skate parks, and athletic fields, are permitted to open only if they comply with any restrictions on access and use that are established by the Health Officer, another government agency, or other entity that manages such area to reduce crowding and risk of transmission of COVID-19. Golf courses are allowed provided that groups are limited to no more than four players when not in the same household, and subject to compliance with Health Officer Directive No. 2020-15, available here. 

(Added 4/29/2020; Amended 4/30/2020, 5/1/2020, 6/1/2020)

What are the requirements for engaging in outdoor activities under the new Order?

The general requirements for outdoor activities with individuals not from the same household are:

- No physical contact.
- No shared balls or other equipment.
- No use of common high touch surfaces in facilities.
- No team sports or spectating at any sporting event or recreation activity.
- Must abide by Social Distancing Requirements.
- Follow recommendations in Face Covering Order.
- Must separately confirm the activity is permitted under the State’s shelter in place order.
- If the activity is performed at a facility, the facility must adopt and post a Social Distancing Protocol including appropriate signage.
- Outdoor recreation activities permitted under the order must conform to any restrictions on access and use established by the Health Officer, government, or other entity that manages such area to reduce crowding and risk of transmission of COVID-19. Such restrictions may include, but are not limited to, restricting the number of entrants, closing the area to vehicular access and parking, or closure to all public access. In the event that too many people engage in permitted activities in close proximity, they may be directed to spread out or leave to avoid high-risk situations.

(Added 4/29/2020; Amended 5/4/2020, 6/1/2020)

What outdoor recreation activities are permitted under the new Order?

Examples of outdoor activities that are permitted under the Order include:

- Walking, jogging, or running;
• Hiking;
• Walking dogs on leash;
• Sunbathing or picnicking (but not at picnic benches or tables) when sufficient distance is maintained at all times between members of a household and others not in the same household;
• Bicycling;
• Golf (subject to compliance with Health Officer Directive No. 2020-15, available here);
• Tennis (subject to compliance with Health Officer Directive No. 2020-15, available here);
• Swimming, surfing, or paddling in the ocean or lakes;
• Exploring rock pools;
• Gardening;
• Meditation;
• Picnics (with members of your household);
• Boating, kayaking, and sculling (but only in craft used solely individuals or if by more than one individual, only by members of one household);
• Paddle boarding, kitesurfing and windsurfing (with the individual’s own equipment);
• Skateboarding, including at a skate-park;
• Roller-skating and roller-blading;
• Archery ranges;
• Tai Chi (individually, not in groups),
• yoga (individually, not in groups);
• Bird watching;
• Kite flying;
• Outdoor photography;
• Fishing, including fly casting (as long as social distancing can be maintained at all times, and there is no sharing of equipment, including rods, reels, tackle or bait); and
• Individual equestrian activities.

**Are charter fishing boats allowed?**
Yes, charter fishing boats may operate and take out passengers, subject to the following conditions:
The number of people aboard the boat must be limited such that at least 6 feet of spacing can be maintained.

Rod holders must be spaced at least 6 feet apart from each other.

Bathrooms (if any) must be sanitized after each use.

The boat and equipment must be washed after each use/trip.

Vessels must prohibit shared handling of fishing equipment or fish.

Make sanitizer available throughout the boat and at each rod station.

Before boarding, passengers must wait on the dock at least six feet apart.

Passengers must not board the vessel until the captain or crew allow boarding.

Vessels must encourage contactless means of payment.

Passengers must not shake hands, share food or drinks, or engage in any unnecessary physical contact. The captain and crew must instruct passengers on these requirements.

Passengers are permitted to bring hand-held lunch coolers only; no large coolers are allowed on the vessel.

All employees and passengers are required to wear face coverings.

Rails, counters, bathroom, and seating areas shall be cleaned as frequently as needed to maintain sanitary conditions.

Passengers shall disembark one at a time as instructed by the crew or captain.

(Added 5/18/2020)

Can tennis courts reopen under the new Order? How about basketball courts?

Tennis courts may reopen subject to compliance with Health Officer Directive No. 2020-15, available here. Basketball courts must remain temporarily closed.

(Added 4/29/2020; Amended 4/30/2020, 6/1/2020)

What other activities and facilities are not allowed under the new Order?

Listed below are examples of activities not permitted to be done and facilities not permitted to be open under the order (both indoors and outdoors). Also, areas and facilities for such activities must be closed to public access including by signage and, as appropriate, by physical barriers facilities for such activities, but may be repurposed and open for other activities that are otherwise allowed under order. The prohibited activities and facilities include:

- All racquet sports other than tennis;
- Swimming in pools, including lane swimming;
- Gyms and fitness centers;
Spas pools, saunas and steam rooms;
Basketball;
Baseball and softball;
Football;
Volleyball;
Lacrosse;
Soccer;
Kickball;
Rugby;
Wrestling;
Martial arts (karate, taekwondo, jiu jitsu, etc.);
Disc sports where multiple people outside a household touch the disc;
Playgrounds;
Gym equipment;
Climbing walls and gyms;
Picnic benches and tables;
Barbeque areas;
Field or ice hockey;
Ice skating;
Roller skating in an enclosed area;
Bocce ball;
Cricket;
Team crew;
Water polo or other team water sports;
Bowling;
Gymnastic or trampoline activities with shared equipment; and
Track and field or other competition events involving group of people or where equipment used by an individual is not disinfected between each user.

These activities are allowed by members of the same household or living unit in groups of six or fewer.

Can I take my kids to the playground?
No. Recreational areas with equipment that lots of people touch or areas where people gather close together, like playgrounds and picnic areas, must be closed and you cannot use them while the Order is in effect. You can take your kids to the park or other areas to run around in open spaces, or bring your own sports equipment to an open space as long as it is used only by members of your own household and not shared with other people.
